School of Computing | Department of Data Science and Business Systems

UNIT 1 - TASK 2: RISK ANALYTICS TOOL EXPLORATION

Comparative Evaluation: OpenFAIR vs. RiskLens vs. LogicManager Across 5 Parameters

Course: 21CSE449T – Risk Analytics | Faculty: Dr. V. Prasanna | B.Tech – CSE (BDA & DS)

Parameter	OpenFAIR (Open-Source)	RiskLens (Commercial CRQ)	LogicManager (Enterprise GRC)
1. Total Cost of Ownership	License: $0. Requires in-house quant analysts. Rating: 5/5 (Free)	License: $50k-$250k/yr. High SaaS cost, rapid cyber ROI. Rating: 2/5 (Expensive)	License: $25k-$120k/yr. Amortized across departments. Rating: 3/5 (Moderate)
2. Features & Modeling	Pure Monte Carlo, Beta-PERT, full parameter control. Rating: 4/5 (Rigor)	Empirical loss tables, control ROI simulator, FAIR Enterprise. Rating: 5/5 (Gold Standard)	Qualitative scoring, survey workflows, incident logging. Rating: 3/5 (Qualitative)
3. Scalability & APIs	Local workstation runtime, manual API scripting. Rating: 2/5 (Limited)	Elastic cloud microservices, ServiceNow/Splunk APIs. Rating: 4/5 (Enterprise SaaS)	Unlimited user surveys, graph relational GRC database. Rating: 5/5 (Org-wide)
4. Reporting & Output	Statistical histograms, CDF/PDF curves. Rating: 2/5 (Technical)	Dollarized ALE, Loss Exceedance Curves, Board decks. Rating: 5/5 (Board Ready)	Heatmaps, compliance radar, deficiency tracking. Rating: 4/5 (Audit Focus)
5. Regulatory Compliance	Open Group OpenFAIR (O-RA / O-RT) standard compliant. Rating: 3/5 (Sound)	SEC Item 106, DORA, Basel Pillar 2 operational risk. Rating: 5/5 (Reg Defense)	SOX 404, ISO 31000, ISO 27001, COSO, HIPAA, GDPR. Rating: 5/5 (Universal)

Strategic Implementation Summary:

1. **OpenFAIR** delivers maximum statistical freedom and zero licensing overhead for academic and data-science practitioners.
2. **RiskLens** represents the corporate benchmark for listed banks and enterprises needing dollar-based Value-at-Risk outputs for Board oversight and SEC disclosures.
3. **LogicManager** provides universal GRC workflow integration across multiple compliance mandates (SOX, ISO, HIPAA, GDPR).
